Follow us on : Falcons Fiberglass

Beauty dons a 'jovial' avatar!

At Falcons fiberglass , each of our planters defies the norms of elegance and reshapes the sense of aesthetics. With their amiable aura, their presence fills up your space with renewed energy and freshness. On each page, you will discover something astounding, something that aligns the symmetry and asymmetry beautifully.

Our Glass Reinforced Plastic (GRP) planters claim that they are not just inconsequential objects supporting your beloved plants. Designed with the zeal to revolutionize the concept of planters, they are the sight to behold wherever they are placed.

Turn on the page to delight your senses with the shapes you might have never 'Imagined' in the form of planters!

AVAILABLE COLORS

EXCESS WATER MANAGEMENT FOR FULL BODY PLANTERS

Excess water in the full body planters trickles down through these pores and is stored at the bottom. The plug near the base allows water to flow out cleanly, at your convenience.

NOTE: As our products are custom made the color, size and weight may slightly differ from the mentioned.

FEATURES

- Light weight
- Stylish looking
- Water resistant
- Frost resistant
- Excess water management
- Suitable for indoor & outdoor

FINISHES

- Gloss
- Matt
